## **DETAILED ACTION**

This office action is in response to the amendment of June 15, 2006. In making the below rejections the examiner has considered and addressed each of the applicant's arguments.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Rodgers et al (USPN 5,207,054).

Rodgers et al disclose a static structure for a gas turbine engine comprising a forward housing (10,128), a diffuser housing (shown near 90,64), a combustor housing (89 in Fig. 1 and 192 in Fig. 6), as shown in Fig. 6 the liner is mounted without fasteners, and there is a forward housing (16).

### ***Allowable Subject Matter***

Claims 1, 5-7, 10-13 and 15 are allowed.

Claim 18 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed June 15, 2006 have been fully considered but they are not persuasive. The applicant argues that the liner 83 of Rodgers et al is joined, through welding to the adjacent walls. The examiner disagrees with this argument. As shown in Fig. 6 the liner slidably abuts the rear member (192, 194) and abuts the member at the opposite end (64). Rodgers et al nowhere states that the members are welded together.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
